PEOPLE MAKE THE COMPANY

We offer to our partners and our customers a global service:

- Data sheets and safety data sheet;
- Technical assistance application;
- Lab support;
- Wide range of certifications;
- Research and development of new formulations.
- Procedures for cleaning and sanitation plans;
- Sanitation plans H.A.C.C.P.;
- Education and training of personnel with targeted courses taught by qualified professionals;
- Customized products with clients' logo;
- Private labels.

Both our lab research & development, quality control and our formulas are able to meet all specific needs and requirements in the Detergents field. A dynamic, young and motivated team will accompany you in the realization of your project at every stage, from development to marketing.

The plant, located in Cusago (Milan), spread over a total area of 13,500 square meters divided between production, warehouse, laboratory and office.

Thanks to a careful and constant search for raw materials together with strict lab controls performed at any stage of processing and a constant search for the most suitable packaging, our final product is always of high quality.
